

Dear Bridge friends,

I know i have fought the election to serve the players but my intentions are only to promote the game of bridge. I guess that you will all agree with it. My priorities are to bring back values for our various national events and provide better playing conditions ,advance information to players about the date venue etc, through which attracting more participation. It is my responsibility to share that most of the present committee members are working almost full time to clear so many pending issues.for your information let me give some of the names who are supporting me.

1,Arijit Guha,2, Dipak Poddar,3,Anand Samant, 4,Sherien Ryan,5,Rajagopal,  
6,Sudhir Aggarwal,7,S.Sunderram., B.Prabakar,9,Debasish Ray,

Kumar Vijayanadsingh is helping me to sort out public relation problems with the help of sri Lakhanpal and Arvind gupta.

Geeta Lakhani in handling ladies issues along with Hema.

Jeroo Mango has volunteered to take care of press with the support of her son.

We need to systemise Master points system and bring in value for the same. If we do not have plans to conduct masters nonmasters life masters and lower category it will have no meaning.

Unless people have motivation to go far higher category it will never have attraction. I am planning to handover Master point responsibility with Sri Ranchu Bhattagharji under the supervision of Sri Arijit And Debasish and decided to pay for the job which is so far very nominal .

But for some of the states all the others are non functional and players themselves do not take responsibility of their own state and expect bfi to answer to all queries which is very tough.

Atleast players have the liberty of writing more after the election which looks to be a great improvement. It will not be possible to go with all ideas , suggestion or even remarks but will keep in mind till the right time. Sriram has kind enough to have a bfi page and we try and update information. We need a team of dedicated people to work otherwise it will be one another site which i don't want.

I should share with you all that so many of them (Arvind Vaidya,T.C.Pant,Friends from Calcutta, Ahamedabad ,Chennai) offered to support this but we need to have materials to be published.

We will try and provide more opportunity for the players and it is for them to decide to join or not. Whoever is going to play should automatically pay and play. From our side we shall try and reduce the burden and promise that nobody ever never try to make money out of tournaments and players. I may have missed so many names who supports silently and they know me very well. Thx.

I have so many in my mind and let me say bye for now.

Regards

N.R.Kirubakaramoorthy
